Speaker: William J. Chriss, J.D., PH.D.—Six Constitutions over Texas

Join us on Thursday to learn about our Texas history. “This meticulous study by legal historian William J. Chriss examines how Anglo Texans went about creating their political identity over three quarters of a century and the impact of those decisions. By delineating the social, political, military, and other considerations at play during the various stages of Texas' development and how those factors manifested in the various constitutions, Chriss illuminates the process by which various groups constructed Texas ‘as an imagined community, an identity produced by ideological consensus among economic, cultural, and legal elites.’” (H.W. Brands)
